Attn Ann Marie
Re: Scholarship Award to FIT Clients

Dear FIT Counselors

The Professional Institute of Technology is proud to be a provider of computer and accounting training for your organization.

We understand that in today's economy many of your clients may not be in a position to pay out of pocket for any part of their program. We want to do what we can to help!!

With that in mind, LV-PITA will automatically provide a 300.00 scholarship to all students who enroll in our training programs through your organization.

In the case of the Accounting and Bookkeeping program, which we charge 2850.00, they would receive the 300.00 scholarship and only be responsible for 50.00, if FIT was to cover 2500.00. This 50.00 can then be paid to us in payments they can afford over the 17 weeks they would be in class.

Please feel free to contact me personally with any questions pertaining to this, and again, thank you for the opportunity to serve your clients.

Sincerely,

Laurie Clemens
Owner/Director
