

The Foundation for an Independent Tomorrow (FIT) provides a unique, unparalleled and holistic case management approach to help unemployed and underemployed Nevadans find and maintain employment. FIT clients gain life-changing results becoming, once and for all, self-sufficient and independent wage earners. We help people gain:

Better Jobs. Brighter Futures.®

What FIT Does for You

Your local economy benefits from the strength of well-paid employees. FIT graduating clients are paid substantially more than when they entered the program. As a result they are more able to support their families as well as the community. They move from reliance on food stamps to patronizing the local café. As a direct result of the FIT program, demands on public services decrease, the tax base of the region increases, and FIT clients gain disposable income that contributes to the local economy.

Your local workforce gains skilled workers able to fill a diversity of jobs. FIT helps develop and diversify the workforce by providing training to residents to qualify for positions in all areas of industry. Both directly and in collaboration with 120 local partners, FIT provides, facilitates, and pays for job readiness, vocational training, tuition, workplace requirements such as uniforms and testing fees, and much more. FIT clients find jobs as truck drivers, paramedics, A+ computer repair technicians, legal assistants, chefs, dog groomers, and much, much more.

Your community becomes more stable and secure. FIT graduates transition from living in subsidized housing to becoming renters and eventually local homeowners. As they move from being dependent on public assistance to becoming productive members of the working community, they are not just able to support their family; they gain dignity, self-respect and confidence through increased independence and self-sufficiency.

Southern Nevada's future is fortified for generations to come.

The children of FIT clients learn from parents who are now able to provide for basic needs, stable housing, and a less stressful home environment. These factors decrease high school drop-out rates, as well as rates of violence and delinquency. FIT clients provide their children with secure home environments and role-models of self-sufficiency, ending the cycle of generational poverty.

FIT's Annual Holiday Celebration

This past December, FIT clients attended our annual holiday party and a great time was had by all.

Children played games and made crafts such as candy cane reindeer and holiday wreaths. Parents were able to sneak off to Santa's workshop to choose toys to wrap and take home for their children.

Clients also had the opportunity to be specifically “adopted” for the holiday. Clients submitted essays and a wish list and fifteen (15) families with forty (40) children were adopted.
